ABOUT US

Established in August 1992, Cinema Nova began as a collaboration between two landmark theatres: The Longford and the Valhalla. Beginning as a twin arthouse theatre, we've grown to become the biggest independent cinema in the southern hemisphere with sixteen screens.

Cinema Nova is fully licensed from 12pm with alcoholic beverages allowed in most sessions and a wine list curated with as much care as the films we screen.

At Cinema Nova, every visit is a special occasion.
